

## NeuroOptimal® 3.0 Basic Course PREPARATION AHEAD

There are tasks to complete prior to the course: **\*\*PLEASE READ\*\*** and complete days prior to the start of the class:

1. This course always teaches the latest version of NeuroOptimal®.
2. Please visit our website [www.neurooptimal.com](http://www.neurooptimal.com), login (top right) and view the START HERE video in the PASS section that relates to your equipment. Please make sure you have reviewed the entire content. Most important is the sections which relates to putting together your equipment and doing a hookup.
3. It is recommended that you sign on to the course using your "every day" computer attached to the Internet with a high-speed connection. Having your Zengar computer off to the side to use during the instruction is usually the best way to do the course. That system does not need to be connected to the Internet. You can access the audio through your computer once you are signed on to GoToWebinar. You can post your questions in the comments area if you wish to make a comment. Alternately, you can call on a landline into the audio portion. The numbers for this are displayed with the login info.

**COURSE MATERIALS:** You should have some attachments to this e-mail containing your relevant course syllabus and other pertinent updated documents including this document. Any other relevant documents or information will be sent to you via email if need be.

At the end of the course you will be required to answer a quiz and survey. The successful completion of this quiz will grant you Basic Certification\*. *All Zengar certifications are valid for a 3 year period at which time a 'recertification' is necessary to keep your Certification current. See [terms and conditions of our website for more information.](#)*

**WHAT YOU WILL NEED TO DO TO GET CERTIFIED:** Basic Certification is granted based upon your presence throughout the direct contact time, demonstration through the course of your understanding of the material (via questions, comments and final quiz). You will receive a certificate via email the week following us receiving your successful quiz results. It would be rare, but if we really did not think you had demonstrated necessary comprehension and ability to run a session, we would request that you undertake supervision with a qualified trainer. When this trainer is willing to attest to your ability to run a basic session and the necessary sample is received, certification would be granted. You would have a year in which to complete this. Otherwise, you could simply repeat the course (there is no special discount for this).
