**NeurOptimal® G-Force Configuration**

1. Right click on the sound icon on the taskbar and select “Open Sound Settings”.

2. In Sound Settings, open the Sound Control Panel.

![Sound Control Panel](image-url)
3. You will first see the playback tab. Verify that Stereo In SoundSpectrum Audio Cable is the default playback device. Now select the Recording tab.
4. In the recording tab, verify microphone array is set to default. Right click on Stereo Out SoundSpectrum Audio Cable and select properties.
