

NeuroOptimal® Bundle

Pricing ranges between:

USD \$7495.00 - USD \$10995.00

Available Platforms:

Surface Pro i5 / i7

NeuroOptimal® is a turn-key, fully automated Dynamical Neurofeedback® system. This bundle comes pre-loaded with the latest NeuroOptimal® 3 software which will provide you with:

- Simple to use, intuitive and built from the ground up for Windows environment
- Unlimited or Limited license (according to purchase)
- New touchscreen interface makes navigating NO3 effortless.
Start a Session with just a few taps
- Larger set of 20 targets including those high Hz, up to 63 Hz (Unlimited)
- New VAULT feature now provides a more comprehensive and user-friendly Client managing system
- Customizable G-Force visualizer to provide a more pleasurable visuals experience
- Unlimited systems can be licensed to operate as a Limited system – ideal for rentals with a set number of Sessions and end date for the rental
- Easier Session import/export process.
- Automatic line noise filter and improved adaptive inline denoising for better graphs following a Session in virtually any environment
- The Matrix Mirror allows you to see spectra and targets within a single display
- Pause feature which allows you to pick up where you left off. Whether a Session stopped voluntarily or not, no need to start over!
- New music by Grammy award winner Jeff Bova composed specifically for NO3
